DEEP HOLE DRILLING MACHINE
SPECIAL PURPOSE MACHINE

Technical services

Based on extensive know- how, we provide comprehensive technical application expertise with leading –edge technology.

Tele services

Our technical service gives the ability to work 24×7, giving us the ability to take care of individual queries and concerns quickly and easily.

Product solutions (Spare parts)

Quick assortment and response for required spares.

OUR PRODUCTS

We manufacture standard and customised designs to suit and accommodate the parts in wide range of network of industrial processes and applications. We offer the best honing machines, gun drilling machines, super finishing machines and special purpose machines.

Creative Engineering started with a vision to offer cost- effective, feasible and versatile solutions for each and every honing machinery requirement. We ensure our patrons best quality honing tools and unbeatable customer support. Owing a team of skilled technicians who hold expertise in the usage of latest technology, we specialise in offering the following services.

Leading manufacturing in high precision honing and SPM machines from the last 12 years. Creative engineering is setting standards as a best problem solver with absolute customer focus, and offer honing machinery and customised solutions and specifications as per specific need.

SSVA -550

PSV - 600

SSV - 550

HSV -250

Horizontal machine

Tools and fixtures-

We offer all types of honing tools that are specially designed for high precision and cost-effectiveness.

Curv honing tool

In process sizing tools-

We offer sizing solution on all types of existing honing machines also.

Inprocess gauging tool with air distributor

Inprocess gauging tool

Sizing process

Gun- drilling

We offer perfectly designed best quality gun-drilling and regrinding machines at reasonable prizes. Our gun drilling machines are well- recognised for their good accuracy and high precision.

Resharpener multi head

Resharpener single head

Gun drill

Super finishing machines

Super finishing machines are used to improve surface finish. They are used to produce surfaces with a very fine or low roughness average (RA). Based on the customer requirement and usage, we develop super finishing machines with different RA and automation.

CE is a Leading manufacturing in high precision honing and SPM machines from the past 12 years. Creative engineering is setting standards as a best problem solver with absolute customer focus, and offer honing machinery and customised solutions and specifications as per specific need.
